A Message From the Founder

Medical billing has been my life for over 20 years. After five years in the health care industry, I started PMB, because I couldn't see myself doing anything else but easing the burden of health care providers and ensuring they get every dime they earn. It is such a joy to see the look on their faces when their billing problems are eliminated. Accurate billing is extremely important to your success, but unfortunately, it's difficult to find skillful and knowledgeable billers. Due to constantly changing regulations, billing brings the challenges of high turnover and employee errors. At PMB, our mission is to provide excellent customer care and precise billing that is accurate and timely. We believe in going the extra mile to satisfy our customers.
